Tuesday 27 January 2015**

Document Title Dogger Bank Teesside A & B  
Deadline IX  
Book of Reference (Updated) (clean)  
Forewind Document Reference F-EXL-DIX-009 (clean)  
Issue Number 1  
Date 27 January 2015

Drafted by	Dentons LLP	
Approved by	Forewind	
Date / initials approval	FW	27-Jan-2015

## Introduction

1. This Book of Reference accompanies the proposed development consent order (the Order) for the Dogger Bank Teesside A&B Offshore Windfarm projects (the project). It describes all land, and identifies all known owners, affected by the Order.
2. The land is required to deliver the works that comprise the project (the works - as set out in the Works Plans). The works are described in Part 1 of Schedule 1 of the Order and the extent of them is shown on the works plans accompanying the Order. The Works Plans show where horizontal directional drilling is proposed.
3. Every parcel of land that is affected is identified on a plot by plot basis and a unique number is given to each plot. Each plot is identified on the Land Plans accompanying the Order.
4. The Book is split into five parts:
  - a. Part 1 contains the names and address of those whose land is proposed to be taken or whose land will be affected by rights contained in the Order;
  - b. Part 2 contains the names and addresses of those whose land, while not directly affected by the project, may still be entitled to compensation;
  - c. Part 3 contains the names and addresses of those who have easements or other rights that may be affected by the project;
  - d. Part 4 identifies any plots where there is a Crown interest (there are none);
  - e. Part 5 identifies the plots of "special category land, in this case open space, these are also shown on the Special Category Land Plan.
5. In Part 1, the majority of plots identified are ones where the Order proposes the freehold acquisition of land. These plots are coloured pink on the land plans. In some cases rights only are required and, for those plots, a "class" of rights is identified. The rights in each class are identified below, and are the rights necessary to carry out and maintain the project.
6. All plots where only rights are sought are identified in Schedule 5 of the Order. Schedule 5 also identifies the purpose for which the rights can be exercised.
7. Most of the classes of rights proposed are permanent rights. These plots are coloured pink on the Land Plans. Class 9 provides for temporary rights in relation

to the temporary works areas. These plots are shown coloured blue on the Land Plans. The temporary works areas are also identified in Schedule 6 of the Order.

8. If the Order is confirmed then, when rights are acquired, those affected will be served with a notice which identifies the class of rights which are being acquired.
9. The Book of Reference has been prepared in accordance with the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009.
10. For the avoidance of doubt all rights (save those in Class 9) are acquired pursuant to Article 25 of the DCO. Class 9 rights are acquired under Article 29 of the DCO. Freehold acquisitions are pursuant to Article 22 of the DCO.

## Part 1: Class of rights

In this Part 1 of the Book of Reference the rights to which reference is made in the following table under the column headed "Extent, description and situation of the land or right" are:

### Class 1 - roads

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as "the cables")) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vi. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty; and
- vii. To access to make good any damage caused in connection with the exercise of these rights.

### Class 2 - footpaths

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as "the cables")) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vi. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty; and
- vii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 3 - access road and inspection**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To construct, use, maintain, repair, renew, inspect, remove and replace access roads (including landscaping areas and passing places) to be used in connection with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables and, where appropriate, the landscaping and the new connection bays within the National Grid substation containing isolation switchgear and electrical equipment for the connection of the export cable to the transmission network;
- iii. To adjust, alter, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as "the cables")) and to take such steps to protect the cables as are reasonable;
- iv. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the construction, use, maintenance, repair, renewal, inspection, removal and replacement of the access roads;
- v. To construct fences and keep such fences in place for the duration of the installation, repair, replacement or maintenance of the cables;
- vi. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vii. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty;
- viii. To maintain, repair, renew, inspect, remove and replace routes for access in connection with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables; and
- ix. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 4 - drains/watercourses**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to two underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as "the cables")) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional, where appropriate, drilling for the installation of the cables;

- v. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vi. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty;
- vii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 5 - Network Rail**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to two underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty; and
- vi. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 6 - beach**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to two underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. The right to restore the ground level to that at the date on which the installation of the cables was completed to remedy any increase or decrease in the ground level above the cables;
- v. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- vi. To construct and thereafter use temporary roads and bridges for the duration of the installation, repair, replacement or maintenance of the cables;

- vii. To construct fences and keep such fences in place for the duration of the installation, repair, replacement or maintenance of the cables;
- viii. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- ix. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty; and
- x. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 7 - land on which there are buildings**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to two underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To construct fences and keep such fences in place for the duration of the installation, repair, replacement or maintenance of the cables;
- vi. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vii. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty; and
- viii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 8 - access to temporary areas**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To create and use pedestrian and vehicular access to and egress from the temporary work area from the highway (which shall include without limitation construction traffic), and with plant, equipment and machinery; and
- ii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 9 - temporary work area**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land;

- ii. To use as a construction and maintenance compound, working area, lay down and parking area for all plant, equipment, materials, machinery and vehicles in connection with the lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables; and
- iv. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 10 - substation**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace the new connection bays within the National Grid substation containing isolation switchgear and electrical equipment for the connection of the export cable to the transmission network;
- ii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iii. To construct fences and keep such fences in place for the duration of the installation, repair, replacement or maintenance of the cables; and
- iv. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 11 - HVDC cables in roads**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vi. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty;

- vii. To maintain, repair, renew, inspect, remove and replace routes for access in connection with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables; and
- viii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 12 - HVDC cables**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To use horizontal directional drilling, where appropriate, for the installation of the cables;
- v. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;
- vi. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty;
- vii. To maintain, repair, renew, inspect, remove and replace routes for access in connection with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables; and
- viii. To access to make good any damage caused in connection with the exercise of these rights.

### **Class 13 - HVAC cables**

The right for the undertaker and all persons authorised on its behalf (with or without appropriate machinery, vehicles, apparatus and plant for such purposes):

- i. To inspect and survey the land, which will include excavations and the carrying out of soil tests;
- ii. To lay down, install, adjust, alter, construct, use, maintain, repair, renew, inspect, remove and replace up to three underground cables (together with such telephone signalling and fibre optic lines and other apparatus as is ancillary to the purposes of transmitting electricity along such cables (which, with the underground cables, are collectively referred to below as “the cables”)) and to take such steps to protect the cables as are reasonable;
- iii. At its own expense and in a good and workmanlike manner to remove trees and bushes and the roots thereof and to fell and lop trees and to remove any thing which would if not removed, obstruct or interfere with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables;
- iv. To install aerial marker posts and to keep such aerial marker posts in place for the duration of the installation, use, repair, replacement or maintenance of the cables;

- v. To lay down, install and use electric cables, telephone signalling cables, fibre optic cables and ancillary equipment and other conducting media, together with conduits or pipes for containing the same, for use when any of the cables are faulty;
- vi. To maintain, repair, renew, inspect, remove and replace routes for access in connection with the lay down, installation, adjustment, alteration, construction, use, maintenance, repair, renewal, inspection, removal or replacement of the cables; and
- vii. To access to make good any damage caused in connection with the exercise of these rights.
