

NOTICE TO MARINERS

DOGGER BANK OFFSHORE WIND FARM

DATE OF ISSUE:	24/06/2022
NOTICE TO MARINER NUMBER	LF600013-IAC-DOG-NOT-0002 rev01

Dogger Bank B Inter-Array Cables Route Clearance

LOCATION DESCRIPTION		Dogger Bank B Offshore Windfarm
COORDINATES WGS 84	DBB OWF	See Table 1 below
START DATE/TIME		29/06/2022
END DATE/TIME		03/08/2022

Description of Hazard/Operation

The Offshore Supply Vessel, **WORLD PEARL**, will perform the Route Clearance operations on Dogger Bank B Inter-Array Cables routes.

The works are scheduled to be performed in a single campaign upon successful completion of Route Clearance operations on Dogger Bank A Inter-Array Cable routes. The campaign is envisaged to commence on the 29th of June 2022 and continue until approximately 3rd of August 2022. The works will be continuous, 24 hours a day. Charts of the DBB IAC routes are provided below.

The operations include the relocation and/or removal of subsea objects, such as debris and boulders, by means of a subsea Grabbing Remoted Operated Vehicle (GROV) within the array cable routes.

During operations, the **WORLD PEARL** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 1.5Nm separation distance from the Offshore Supply Vessel and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working corridor.
