| START DATE/TIME | | 26/09/2022 |
| END DATE/TIME | | Q3 2023 |

Description of Hazard/Operation

The Offshore installation vessel, **HLV Seaway Strashnov**, will install monopile foundations, within the Dogger Bank A construction area.

The works will commence on the 26th of September 2022, continuing until approximately Q3 2023. The works will be continuous 24 hours a day. A chart of the DBA construction area and the foundation locations are provided below. A running list of the next locations to be installed and completed foundation locations are presented in the Weekly Notice of Operations.

During operations, the **HLV Seaway Strashnov** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

During operations, a Statutory Safety zone of 500m radius will be in place around the **HLV Seaway Strashnov** during the installation of foundations. The safety zones will be monitored by a guard vessel. The primary response will be to warn passing traffic of the ongoing works and any active safety zones, and to alert any vessels where an infringement may occur or has occurred.
