

# Weekly Notice of Operations (WNoO)

## Dogger Bank C Offshore Windfarm

### Construction Operations

**DOGGER BANK**  
WIND FARM

Issue Date: 09<sup>th</sup> February 2026

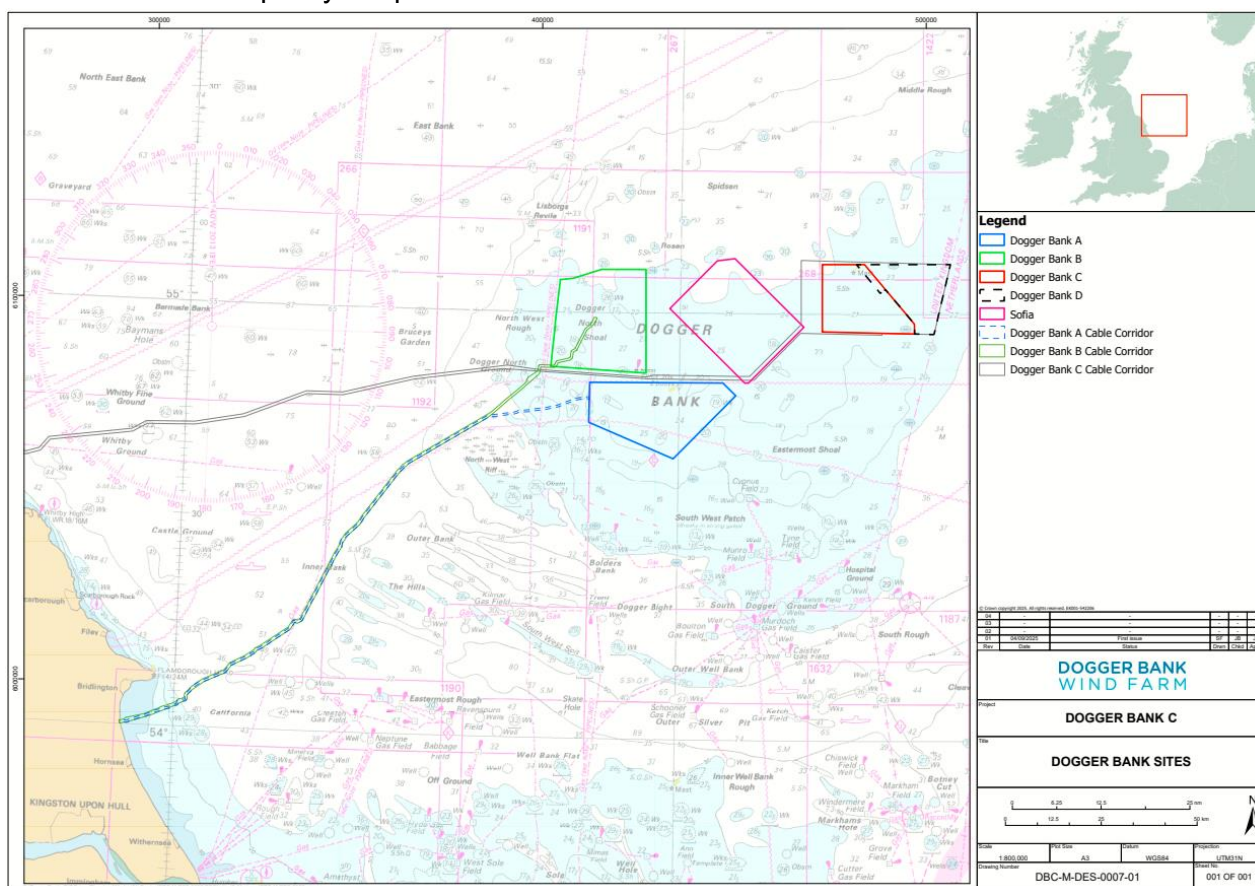

LF700013-CST-DOG-NOT-0099 Weekly Notice of Operations – Rev 072

Work Planned for the Period 09.02.2026 to 15.02.2026

Offshore Construction of the Dogger Bank C Offshore Wind Farm commenced on the 07th of October 2024.

This notice will be updated weekly, giving information on the progress and resources involved in the offshore project. The intention is to give an overview of activities and vessels involved. Should anyone have questions regarding the operations, we kindly ask you to put them forward well in advance.

Dogger Bank Offshore Wind Project is a development project within the Renewables offshore wind sector for the three owners; SSE, Equinor and Vårgrønn. Dogger Bank C is the third stage of development in the Dogger Bank Zone in the United Kingdom. It will have a consented capacity of up to 1.2 GW.

#### 1. Contact Details for Marine Coordination

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representatives.

Duty Marine Coordinator Telephone Number	+44 (0) 7586 332078
Emergency Contact (24/7)	+44 (0) 7586 332078
Email for Marine Coordinator	<a href="mailto:gm_dbmcc@equinor.com">gm_dbmcc@equinor.com</a>
Address	Dogger Bank MCC, Dogger Bank Operations & Maintenance Base, Enterprise Way, East Side, Port of Tyne, South Shields NE33 5SW

#### 2. Ongoing Operations

##### 2.1 Construction Support Activities

The Service Operations Vessels (SOV) **Grampian Tees** and **Grampian Tweed** will carry out construction support activities at the Offshore Substation Platform in the DBC construction site and at various WTG locations.

##### 2.2 Inter Array Cable Operations

The Cable Lay Vessel (CLV) **Viking Neptun** has completed the first round of inter array cable installation works. The Service Operations Vessel (SOV) **Norside Cetus** will conduct Inter Array Cable termination and testing operations at various locations in the construction area.

During operations, the **Norside Cetus** will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

##### 2.3 Seabed Rock Installation

The Fall Pipe Vessel (FPV) **Rollingstone** will install subsea rock at various locations within the Dogger Bank C construction area.

The works will be continuous, 24 hours a day. During operations, **Rollingstone** will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 500m separation distance from the working vessels and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working area.

### 3. Installation progress

**3.1** All Monopile / Transition Pieces (MP/TP) in the DBC construction site have now been installed

**3.2** The table and diagram below present the locations of the DBC Inter Array Cable (IAC) locations and gives an update on the progress of installation of various stages of construction.

# Weekly Notice of Operations (WNoO)

## Dogger Bank C Offshore Windfarm

### Construction Operations

Issue Date: 09<sup>th</sup> February 2026

LF700013-CST-DOG-NOT-0099 Weekly Notice of Operations – Rev 072

#### 4. General Safety Advice

All vessels engaged in construction activities will exhibit the appropriate lights and shapes, defined by the International Regulations for Preventing Collisions at Sea 1972, relative to their operations. Vessels will also transmit an Automatic Identification System (AIS) message.

#### 5. Safety Zones within the Dogger Bank Offshore Windfarm Construction Area

The Secretary of State for Business, Energy and Industrial Strategy (BEIS) has approved the use of safety zones under the Energy Act 2004 for the installation of wind turbines and offshore transformer module foundations/substructures within the Dogger Bank Offshore Windfarm.

The Secretary of State has declared safety zones under the following terms:

##### During Construction

- 500 metres radius around each wind turbine, offshore transformer module and/or their substructures and foundations comprising the Dogger Bank Offshore Wind Farm whilst work is being performed as indicated by the presence of construction vessels.

(It is noted that the 500 metre safety zones will roll with the installation activity with no more than two construction vessels working at any one time. Vessels are advised that

---

anchors associated with the construction vessels may extend outside of the 500 metre safety zone.)

- 50 metres radius around each wind turbine, offshore transformer module and/or their substructure and foundations installed but waiting to be commissioned as part of the Dogger Bank Offshore Wind Farm.

Positions of foundations installed will be published in the current Weekly Notice of Operations. Only vessels associated with the Dogger Bank Offshore Wind Farm construction may enter statutory safety zones.

The guard vessel and Marine Coordination centre will be responsible for monitoring and policing the safety zones; and can be contacted directly for advice. The guard vessel will be on site 24/7 whilst safety zones are in place.

Further information on the application of safety zones can be obtained from the Marine Coordinator. Users are advised to keep clear of construction activities, including safety zones, within the Dogger Bank Offshore Windfarm construction area in line with Marine Guidance Note (MGN) 372.

ALL VESSELS ARE REQUESTED to give all construction and support vessels a wide berth.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch. 70 / 16 when navigating the area

### **6. Fisheries Liaison**

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine Ltd. For any commercial fishery queries please contact:

**Alex Winrow-Giffin, Brown & May Marine Ltd**

[Alex@brownmay.com](mailto:Alex@brownmay.com)

**Tel: 01379 870181 Mob: 07760 160039**

**Zoë Lawrence - Brown & May Marine Ltd**

[zoe@brownmay.com](mailto:zoe@brownmay.com)

**Mob: 07923 138175**

The Export Cable installation campaign is anticipated to be completed ~ April 2025.

### **7. Distribution List**

A central list of recipients is maintained by the Marine Coordinator. If you are not the appropriate recipient of these notices or do not wish to receive the notices in the future, please contact us at the address included in Section 1 of this notice.
