

NOTICE TO MARINERS

DOGGER BANK OFFSHORE WIND FARM

DATE OF ISSUE:	18/06/2026
NOTICE TO MARINER NUMBER	LF700013-IAC-DOG-NOT-0002 Rev 002

Dogger Bank C IAC Installation Operations

LOCATION DESCRIPTION		Dogger Bank C Offshore Windfarm
COORDINATES WGS 84	DBC OWF	See Table 1 below
START DATE/TIME		21/06/2026
END DATE/TIME		25/08/2026

Description of Hazard/Operation

The Cable Lay Vessel (CLV) **VIKING NEPTUN** will perform the remaining inter-array cable installation works at Dogger Bank C with the assistance of the Service Operations Vessel (SOV) **WIND EVOLUTION** for the deployment of cable pull-in teams. All works will be carried out continuously, 24 hours a day. Charts of the DBC array area are provided below. Works are scheduled to commence on or around 21 June 2026, starting with foundation preparations by the Wind Evolution. The Viking Neptun is then scheduled to enter the field around 29 June 2026 to start cable lay operations.

The cable lay vessel will deploy the inter array cable onto the seabed through her dedicated deck spread. The cable will remain exposed on the seabed till trenching is performed.

During operations, the **VIKING NEPTUN** and **WIND EVOLUTION** will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 1.5Nm separation distance from the vessels and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working corridor.
